
DAVE BIRCH

LONDON
SPEAKER
BUREAU

- One of the world's leading experts on digital money

David G.W. Birch is Director of Innovation at Consult Hyperion, the IT management consultancy that specialises in electronic transactions. Here he provides specialist consultancy support to clients around the world, including all of the leading payment brands, major telecommunications providers, governments bodies and international organisations including the OECD. Before helping to found Consult Hyperion (one of the very first companies on the Surrey University Business Park) in 1986, he spent several years working as a consultant in Europe, the Far East and North America. He graduated from the University of Southampton with a B.Sc (Hons.) in Physics.

Topics

- Finance
- Future
- Technology

Described at the Oxford Internet Institute as “one of Britain’s most acute observers of the internet and social networks”, in The Telegraph as “one of the world’s leading experts on digital money”, in The Independent as a “grade-A geek”, by the Centre for the Study of Financial Innovation as “one of the most user-friendly of the UK’s uber-techies” and in Financial World as “mad”, Birch is an internationally-recognised thought leader in digital identity and digital money.

Birch was named one of the global top 15 favourite sources of business information (Wired magazine) and one of the top ten most influential voices in banking (Financial Brand); was one of the top ten Twitter accounts followed by innovators, along with Bill Gates and Richard Branson (PR Daily); was ranked in the top three most influential people in London’s FinTech community (City A.M.), was voted one of the European “Top 40” people in digital financial services (Financial News), was listed of the world’s top 100 most influential FinTech leaders (Hot Topics) and was rated Europe’s most influential commentator on emerging payments (Total Payments).

Birch has lectured to MBA level on the impact of new information and communications technologies and contributed to publications ranging from the Parliamentary IT Review to Prospect. He wrote a Guardian column for many years. He is a media commentator on electronic business issues and has appeared on BBC television and radio, Sky and other channels around the world. His most recent book “Identity is the New Money” was published in April 2014 and he is currently working on “Before Babylon, Beyond Blockchain”, a book about the future of money to be published by LPP in Summer 2016.
