Kahneman earned his Ph.D. in Psychology from the University of California, Berkeley. During the past several years, the primary focus of his research has been the study of various aspects of experienced utility (that is, the utility of outcomes as people actually live them).

In addition to the Nobel Prize, Kahneman has been the recipient of many other awards, among them the Distinguished Scientific Contribution Award of the American Psychological Association (1982) and the Grawemeyer Prize (2002), both jointly with Amos Tversky, the Warren Medal of the Society of Experimental Psychologists (1995), the Hilgard Award for Career Contributions to General Psychology (1995), and the Lifetime Contribution Award of the American Psychological Association (2007).
